

Earth and Atmospheric Sciences

College of Sciences

CAMPUS RESOURCES

Institute Diversity, Equity & Inclusion

<https://diversity.gatech.edu/>

Provides leadership to establish priorities, policies, and programs that support GT's mission as a leading technological university.

Center for Student Diversity & Inclusion

<https://csdi.gatech.edu/>

Provide programs and pathways to success for underrepresented minority and women students on campus.

Center for Women, Sciences & Technology

<https://wst.gatech.edu/>

Promotes the recruitment, retention, and advancement of female students.

Graduate Student Diversity Council

<https://cos.gatech.edu/graduate-student-diversity-council>

Work with faculty across the College of Sciences to improve recruitment efforts, support and retain current graduate students, and develop a more diverse corps of future scientists.

Latino Organization of Graduate Students

<https://logras.gatech.edu/>

Promotes the academic and professional development of student members while fostering a culture of excellence, leadership, as well as social and political consciousness.

Women of Color Initiative

<https://omed.gatech.edu/woci>

Designed to enhance the advancement of women of color in industry, research, and higher education through targeted research-based strategies.

LGBTQIA Resource Center

<https://lgbtqia.gatech.edu/>

Provide events aimed at educating faculty, students, and staff about LGBTQIA issues, providing safe spaces for students to build community and explore their identities, and facilitating conversations about LGBTQIA diversity, equity, and inclusion.

GOIZUETA FOUNDATION FELLOWSHIP

Fellowship designed to assist the Institute in its efforts to attract and promote exceptional graduate students of Hispanic/Latino origin who are interested in pursuing their Ph.D.

Deadline: March 6, 2021

OUTREACH IN ATLANTA

Frontier in Sciences

Lecture series hosted by the College of Sciences hosts renowned scientists in and outside of Georgia Tech to engage with the public

Atlanta Science Festival

A week-long festival aims to expand the community of science enthusiasts in Atlanta and to inspire a new generation of curious thinkers. College of Sciences faculty, staff, and students are fired-up participants, using the occasion to share the joy of science.

Atlanta Science Tavern

Once or twice a month, science enthusiasts gather at Manuel's Tavern, a pub in Poncey-Highland neighborhood, to share in the excitement of the latest scientific discoveries with friends over food and drink.
